

# ENERGY AWARENESS MONTH

## Conservation at School

### ENERGY VAMPIRES

are devices that continue to use energy and drain power, even when turned off.

### UNPLUG IT TO SAVE MONEY

- Lamps
- Pencil sharpeners
- Phone chargers
- Calculators
- Overhead projector

## Did you know?

Only

**10%** OF ELECTRICITY

used by an incandescent bulb is converted to light.

While

**90%** OF ELECTRICITY

used by an LED bulb is converted to light.

## Conservation at Home

Save

**8** GALLONS OF WATER PER DAY

by each person turning off the water while brushing their teeth both morning and night.

**2,920** GALLONS PER YEAR

**ENERGY CONSERVED IS  
ENERGY PRODUCED**
