TEACHING MULTILINGUAL LEARNERS

ML Tip Overview: I can find and use the Wonders ELL resources to support my students in Tier I.

Domain Focus: Speaking, Listening, Reading & Writing

Setting: Whole Group or Small Group

ELL Supports in Wonders

Wonders provides targeted language supports for all levels of English Language proficiency. Each of your English language learners are unique and have varying levels of language proficiency. You can use the individual domain proficiency levels to select supports from Wonders that will support your students in specific areas during Tier 1 reading instruction. Some of your students may need additional support with writing, while other students need further questioning and prompting with background knowledge and vocabulary.

Appropriately scaffolded instruction helps our ML students attain proficiency and understand grade level texts and concepts. Wonders provides supports for beginning, intermediate, and advanced levels of language proficiencies.

Wonders	Beginning	Intermediate	Advanced/ Advanced High	Exit from ELL Designation
WIDA	Entering & Emerging (I&2)	Developing/ Expanding (3&4)	Bridging (5)	Reaching (6)

There are weekly supports for all domains with the reading selections, vocabulary, grammar topics, writing supports and more. These resources can be found in your teacher manuals, but you can also see all the available resources for the week online! Lets take a look at the view of our ELL resources on the Wonders Weekly Planner!
