

Assigning *Waggle*® practice just got easier!

Effortlessly assign *Waggle*'s differentiated practice with *Into Math*® lessons. Teachers say goodbye to needless clicks and hello to efficient, time-saving lesson planning. Students benefit from a seamless integrated learning experience that reinforces key concepts and deepens understanding.

Seamless Integration, Maximum Efficiency

The screenshot shows the 'Adaptive Practice' section of the Into Math interface. A callout box titled 'Adaptive Practice' is overlaid on the main interface, showing a detailed view of a resource card for 'Lesson 1.3 Represent Multiplication with Arrays'. The card includes a title field, a Waggle logo, a heart icon, and a three-dot menu icon. Below this, the 'Differentiation' section is visible, showing a table with columns for 'TITLE' and 'COMPONENT'. The table lists four differentiated resources: 'Reteach: Represent Multiplication with Arrays - Learn the Math', 'Reteach: Represent Multiplication with Arrays - Do the Math', 'Reteach: Represent Multiplication with Arrays', and 'Challenge: Represent Multiplication with Arrays'. Each row includes a component type (Reteach or Challenge), a heart icon, a circular refresh icon, and a three-dot menu icon. At the bottom of the table, it shows '1-4 of 6' and navigation arrows.

- **Streamlined Integration on Ed:** Imagine having all your teaching resources organized in one spot. With HMH, you experience less searching, and more focused teaching.
- **Direct Alignment with *Into Math* Lessons:** Seamlessly integrated, *Waggle*'s adaptive practice and instruction can be found right alongside your *Into Math* lesson resources.
